Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

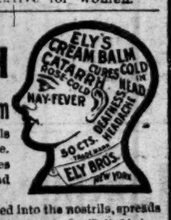

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed *in plain English* on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ELY BROTHERS, 56 Warren Street, New York

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without help is not devoid of character; far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, innocculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds the strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Dr. Shoop's Restorative

IMAGINED SHE WAS HEALED.

A serious accident occurred at Shiloh House in Zion City near Chicago, yesterday. It resulted from the frenzy or religious fervor attending the thronging of sick and ailing persons to the bier of Dowie in the hope of being cured by touching the hem of his shroud.

Rachel Fisher, a young woman, was painfully injured when she fell down the stairway of the house in a vain attempt to walk after kissing the fringe of the prophet's coffin.

Suffering from locomotor ataxia for years, she was carried into the reception room, where the body lay in State. She was supported at the side of the coffin while she painfully bent her lips to the silken fringe that borders the casket. She straightened up after the performance of the rite and whispered weakly: "Father, I can walk."

Her father assisted her gently through the room in the line with hundreds of others passing in and out. When the invalid woman reached the door she thrust her father's hands away and endeavored to descend the steps alone, repeating that she could walk. Her feet slipped on the second step, and she plunged down the entire length of the stairway. When attendants reached her and aided her father in lifting her to the ground it was found that she was unconscious. Then she was carried into a room and partly revived, after which she was taken home in a carriage.

Miss Fisher was only one of the many besieging the house. All the morning a line reached from the front door across the lawn to the sidewalk.

Palsied women and weak-eyed children in arms, boys with limbs in steel braces, and feeble, tottering old men mingled together in the procession.

The factional war that has for months convulsed the colony here reached a climax when a wordy battle was fought across the bier of the "first apostle" by leaders of opposing parties. Gladstone Dowie and Deacon J. C. Cutler being engaged in a heated dispute within a few feet of the draped coffin.

Throngs filled into the death chamber and there performed their memorial rites, then passed out together around Shiloh House to await the resurrection of the dead leader.

The belief is general among Zionites that Dowie will rise again and speak to his followers before he departs from this world.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Terrific Storms.

A terrific storm struck Wheeling, W. Va., about midnight last night, and for over eight hours there was a deluge. The Ohio river rose 15 feet in 10 hours, and all the creeks in that section overflowed their banks, causing damage amounting to thousands of dollars. An unidentified man tried to ford Wheeling creek, six miles above Wheeling, and he and his horse were drowned. All the street car lines from the surrounding towns were tied up completely by landslides, and the railroads also suffered. The water tore loose a big rock on the Pittsburg division of the B. & O., and the Pittsburg and Cincinnati express train struck the rock and was derailed. The passengers were not injured, but the wreck blockaded the line for six hours. The escape from death of the passengers was nothing less than miraculous. According to the local weather observer, two inches of rain fell.

Reports received in Winchester from various sections of Frederick county indicate that considerable damage was done by the severe electrical storm that swept over that section at an early hour yesterday morning. The storm was accompanied by a vivid display of lightning, high winds and a heavy downpour of rain. Several farmhouses and barns and numerous telephone poles were struck by lightning and two telephone lines were put out of business temporarily. Lemuel Clark, a farmer, was hurled from his bed by the lightning, which struck a telephone pole near his house. The storm was the most severe ever known in Frederick county at this time of the year.

THE MODEL CLUB WOMAN'S PRAYER.

[The Wilkes-Barre, Pa., Times of March 9 publishes the following, which was contributed by Rev. John Cavanagh, formerly pastor of the Free Methodist Church in this city.]

O, Lord, I come to thee in prayer once more,
But pardon if I do not kneel before
Thy gracious presence, for my knees are sore
With so much walking. In my chair instead
I'll sit at ease and humbly bow my head.
I've labored in Thy vineyard, Thou dost know,
I've sold ten tickets to the minstrel show;
I've called on fifteen strangers in our town,
Their contributions to our church put down;
I've baked a pot of beans for Wednesday's spree,
An old-time supper it is going to be.
I've dressed three dolls, too, for our annual fair,
And made a cake which we must raffle there.
Now, with Thy boundless wisdom so sublime,
Thou knowest that these duties all take time
I have no time to fight my spirit's foes.
I have no time to mend my husband's clothes.
My children roam the streets from morn till night;
I have no time to teach them to do right,
But Thou, O Lord, considering all my cares,
Will count them righteous; also heed my prayers.
Bless the bean supper and the minstrel show,
And put it in the hearts of all to go.
Induce the visitors to patronize
The men who in our programme advertise;
Because I chased these merchants till they hid
When'er they saw me coming; yes, they did!
Increase the contributions to our fair,
And bless the people who assemble there.
Bless thou the grab-bag and the gypsy tent,
The flower table and the cake that's sent;
May our Whist club be to our service blest,
The dancing party gayer than the rest;
And when Thou hast bestowed these blessings, then
We pray that Thou will bless our souls.
Amen.

Sale of Rare Coins.

The first session of the auction sale of rare coins collected by the late David S. Wilson, of Pittsburg, held in Philadelphia yesterday, proved to be the largest day's sale of coins ever held in America. The net receipts were $13,491.55. Forty-six complete sets of United States gold proof coins, especially struck by the mint for collectors, in denominations from $1 to $20, netted over $8,500. One Pittsburg collector purchased $3,000 worth.

Record prices prevailed, marking an advance in gold coins of all denominations. Eighteen early $5 gold pieces brought $3,018, the highest price for a single specimen, $650, being paid by a collector from New York for one dated 1819. Thirteen quarter eagles sold for $1,069, one dated 1834, with a motto, bringing $260.

Nine very rare $1 gold pieces sold for $386. A $1 gold piece of the Dahlonega mint mark, in extremely fine condition, sold for $280, the highest price paid for a gold dollar. Only four specimens of this date and mint are known, and none had ever been offered at auction before.

A half-dollar of 1796 sold for $120.

Piles of people have Piles. Why suffer from piles when you can use DeWitt's Carbolized Witch Hazel Salve and get relief. Nothing else so good. Beware of imitations. See that the name is stamped on each box. Sold by W. F. Creighton & Co., 401 King street.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer. For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists, 75c, including spraying tube, or mailed by Ely Bros., 56 Warren Street New York.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, MAR. 14, 1907.

THERE IS every reason to believe that not only the United States but other countries are on the verge of a big panic. Chaos and confusion reigned in Wall street yesterday, and there was a tremendous tumble in all stocks. Cable dispatches showed that similar conditions prevailed on foreign exchanges. The demoralization seemed to be world-wide, though the cause of the trouble was a mystery to all. There was a general rush in New York to sell at any price There has been a decline of $1,600,000,000 in market values from the high prices of last year. There was a final stampede and bankers are now said to be sitting on their gold chests awaiting the outcome. Some believe that present conditions have been brought about by the Harriman revelations, while others are inclined to hold that they have been needlessly precipitated in order to induce the administration to call a halt in the investigations now in progress.

THE PROCEEDINGS in the Thaw murder trial in New York are again becoming interesting. District Attorney Jerome yesterday succeeded in getting before the jury the contents of the famous affidavit Evelyn Thaw made against her husband at the instigation of Stanford White in the office of Abe Hummel. Jerome says Thaw beat Evelyn Nesbit's bare body with a whip to force her to sign her charges against the architect, but she refused. Later, according to the District Attorney, while alienated from Thaw, she made an affidavit that she had not told Thaw White had assaulted her. Jerome seeks to discredit the wife's story by showing she made conflicting statements. The foundation for both the defense and prosecution is built on the truth or inacuracy of the wife's story. The entire case will stand or fall with the exclusion or admission of the affidavit.

MR. JAMES GAYLEY, first vice president of the United States Steel Corporation, made a threat in Baltimore on Monday that unless the government uses more armor plate the corporation will shut down its mills, and thousands of skilled mechanics will be thrown out of employment. Mr. Gayley said that the United States Steel Corporation would have to have a market for more than 15,000 tons of the armor plate to make it at all profitable to run the plants. Since the Midvale Steel Company has been able to procure a share of the armor plate work of the government the trust has not been selling enough of the article, he states, to justify it in keeping tied up the amount of capital necessary to run a factory of that kind. The cheek of these steel magnates is amazing.

THERE WAS recently unloaded in New York a steamer that brought 13,941 bales of wool from Australia valued at $2,000,000. The duty collected on this wool was $770,000. This is a specimen of the fines imposed upon importers who seek to trade with the people of South America, Australia and other wool exporting countries. This country does not produce wool enough to meet domestic demand. And yet their are people running around the country who call themselves statesmen who are desirous of paying subsidies to American ships to carry the products we so heavily tax and to encourage trade so savagely repelled!

MR. DON P. HALSEY, of Lynchburg, a nephew of Senator Daniel, announces his candidacy for the State Senate, to succeed Senator A. F. Thomas, from the district composed of the county of Campbell and the city of Lynchburg. Senator Thomas will also be a candidate. It will be recalled that Senator Thomas has announced his opposition to the return of Senator Daniel to the United States Senate and this will be the issue.

THROUGH an apparently concerted influence, stock market values melted away yesterday with almost unprecedented rapidity. The depreciation of values was greater than ever before in the history of the market, except in times of actual panic. The decline extended throughout the list of active stocks. Wall street seems to value the slump as a result of a panic-plan aimed at Mr. Roosevelt's policies, by railroad interests.

THE ACTION of the railroad managers who have violated laws and their threats that, if the administration does not let up on them, there will be hard times, is the same game they played upon the people in the campaign of 1896, when corporation contributions, threats and intimidations scared the people into voting for McKinley. But sensible people are not scared twice by the same device.

THE STROTHERS TRIAL lasted but nine days but the Thaw trial is now in its ninth week and is still dragging its slow course along with no prospect of an early end, which is so devoutly wished for. By the way, if that pistol with which Thaw killed White had shot both ways what a lot of trouble would have been saved.

From Washington.

Correspondence of the Alexandria Gazette.]

Washington, March 14.

Announcement was made today by the War Department of the resignations of Gen. Peter C. Hains, U. S. Army; Mr. Benjamin M. Harrod, and Rear-Admiral M. L. Endicott as members of the Panama Canal Commission. Their resignations have been accepted to take effect March 15. It is understood that the resignation of Chief Engineer John N. Stevens, which was tendered some weeks ago, will take effect April 1st., when Lieut-Col. George W. Goethals, U. S. Engineer Corps, will become chief engineer. As a result of these resignations, it is stated at the War Department, the Isthmian Canal Commission, will consist of John F. Stevens, Chairman until April 1st., when he will also retire; Lieut-Col. George W. Goethals, who will succeed Mr. Stevens; Majors David Du Gaillard and William L. Serbert, both of the Army Corps of Engineers;. Rear-Admiral H. H. Rosseau, Civil Engineers, U. S. Navy; Col. William C. Gorgas, Army Medical Corps, Mr. Jackson Smith, who is at present head of the Department of Labor and Quarters on the Isthmus and former Senator Joseph Blackburn.

The first step in what gives promise of being the first criminal prosecution by the Government under the new railroad rate law were taken at the Interstate Commerce Commission today when witnesses were examined concerning charge of falsifying weight on cotton seed shipped to mills in Laurinburg and Lumberton, N. C. In this case the Seaboard Air Line is the complainant.

President Roosevelt today instructed Attorney-General Bonaparte to order the District Attorney at San Francisco to withdraw the suit pending there which was to decide the right of Japanese children to attend the regular public schools. This is done on the information received yesterday by the the President that the San Francisco school board has rescinded its former order of segregation.

Secretary Garfield, the new head of the Interior Department, today signed an order for the office force in the General Land Office to remain on duty a half hour longer each day than has been the rule for years. This is done at the suggestion of Commissioner Ballinger, of the Land Office, in order to bring the work of the office, upon date in all its branches. Some of the divisions are three months behind. The order of the President releasing from suspension entries on the public land has something to do with this. The clerks will get no extra pay for the additional work.

The New Douma Cowered.

St. Petersburg, March 14.—Premier Stolypin has completely cowered the new douma, of which such great things was expected, through his threat to dissolve the body in case it adopts revolutionary tactics, and the government controls the situation completely. Just how thoroughly the premier has the douma in the toils was shown in a caucus of all the opposition parties last night, when it was decided to go to the extent of adjourning the session tomorrow when the government programme is offered if necessary to prevent a debate attacking Stolypin. Only the social democrats opposed this plan and they were rudely squelched by the others. A plan to criticise Stolypin was presented by them and even the social revolutionists joined in negativing this plan. Thereupon, the social democrats threatened to start the anti-Stolypin debate themselves. This move was countered by the adoption of a resolution pledging all the other parties to support a motion to suspend the debate it the government's programme is not sufficiently liberal to satisfy the social democrats. All the parties agreed to leave the hall forcing an adjournment if an attack on the premier is made.

Steamship Ashore.

New York, March 14.—Life savers from both the Blue Point and the Lone Hill, L. I., stations today are keeping constant watch over the British steamship Gowanburn which went ashore last evening on the outer shoal between the two stations, not far from Patchogue, L. I. She is in a dangerous position and may go to pieces at any time. In the thick fog and heavy seas it is probable that if she does break up many of her crew will be lost.

This morning, after having made several ineffectual attempts to launch life boats, the life savers succeeded in shooting a line across the stranded steamer's bow. They sent a man in a breeches buoy who brought back word from Captain McNeil and his crew of 30 that they would stick to the ship and try to work her off the bar. The waves were sweeping clear across the ship.

At dawn, today, the ship was yet visible, 400 yards off the beach, only her mournful foghorn telling the life savers that she was there. The Gowanburn is a 2,723 ton vessel laden with wool from Hull, England.

The Missing Boy.

Wilmington, Del., March 14.—The abductors of little Horace Marvin are coming nearer home to deliver him. The third and clinching letter, all being in the same handwriting, came to Dr. Marvin today. It read as though written in Wilmington, but came from Philadelphia by railway mail car. It said: "For $1,000 we will return your boy. Take the money to the entrance to Brandywine Springs Park, Wilmington, Del. There you will find a man with a red handkerchief around his neck. Hand the coin to him and pass on. Don't tell the police, for if you do you will never get him alive. Others will be around to watch you so don't try any funny business. THE VELVET HAND."

The detectives are now in conference with Dr. Marvin and he will go to Brandywine Springs today.

The Explosion on the Battleship Jena.

Toulon, March 14.—While it will never definitely be known how many lives were lost in the explosion on the French battleship Jena last Tuesday, it is believed that the death list today is between 115 and 130, and to this will be added a number of the fatally wounded, whose chances of recovery are slight. Many victims were literally blown to pieces and will never be accounted for. The work of recovering the bodies from the burned battleship is progressing very slowly, the suffocating fumes reaching the work of the rescuers and after the bodies of the victims have been recovered they are for the most part found to be so disfigured that identification is impossible. Hopes are now entertained by the French navy officials that the Jena can be repaired and used as a training ship, but it is their opinion that she can never be used in active service.

News of the Day.

Rev. Dr. Henry Vandyke has decided to not resign from Princeton.

The deaths due to the blowing up of the French battleship Jena may number 120.

The Secretary of the Treasury announced yesterday afternoon that it is not his intention to fix at present a date upon which the thirty millions additional deposits placed with existing depositary banks, secured by state, municipal and railroad bonds under the terms of the press announcement of September 27, 1906, shall be returned to the Treasury.

Secretary Wilson of the Department of Agriculture opened the annual show of the American Rose Society and spring exhibition of the Florists' Club, of Washington, which is to continue three days, in the Washington Light Infantry Hall, at 6 o'clock last evening with appropriate ceremonies. Flowers of all kinds and of every shade and hue are exhibited.

Attorney General Charles J. Bonaparte said last night that, at the request of President Roosevelt, he is looking into certain allegations which have been made against Walter A. Mason, formerly president of the Commercial and Farmers' National Bank, of Baltimore, and now a national bank examiner. The Attorney-General says a Mr. White, of Philadelphia, has filed charges against the bank examiner in connection with a bank failure in South Bethlehem several years ago.

Disorder in Louisville.

Two outbreaks of rather formidable proportions in connection with the strike of street railway employes occurred in the business quarter of Louisville, Ky., yesterday afternoon. The first was started at Fourth and Jefferson streets, the busiest corner in the city, by a cab driver blocking a Second street car with his cab and then attempting to tear off the heavy wire screen with which all cars were provided for the protecttion of motormen.

The cab driver was arrested and three policemen started to walk him to the Central Police Station, at the City Hall, a block away. A thousand persons attempted to release the prisoner. Heavy reinforcements of policeman prevented this, but the crowd was not dispersed until a score of arrests were made. No one was seriously hurt.

The second outbreak occurred at Seventh and Main streets, where a carload of strikebreakers, arriving from St. Louis, were transferring to a suburban express car. The strikebreakers were protected by policemen during the transfer, but the minute the St. Louis men were aboard the express car a volley of missiles crashed into it, several inside being slightly hurt. A large number of arrests were made before the assailants were dispersed.

Several other affrays occurred during the day, but no one was seriously hurt.

Railroad School.

The Southern Railway Company this week installed in its shops at Spencer, N. C., an educational enterprise entirely new to the railroad world, and which is the first of its kind established in the South. A department has been created for instruction in mathematics, algebra, geometry, trigonometry, mechanical drawing, and kindred subjects. The instruction will be given free to all apprentice men, who will be allowed time at full pay to take the studies.

A suitable building has been arranged and the work inaugurated under the direction of Prof. W. E. McEldowney, of Scranton, Pa., who has been employed by the Southern. It is the purpose of the company to establish similar institutes at every shop on the system. Upon completion of any branch taught, diplomes will be granted upon examinations conducted by members of the faculty.

Was He Slumming?

A man who described himself as Rev. William H. Mears, assistant rector of St. Matthew's Protestant Episcopal Church, Eighty-fourth street, near Columbus avenue, New York was a prisoner in Jefferson Market Court yesterday, having been arrested in a negro illegal resort on Seventh avenue by two detectives. Arraigned with him were two negro girls. One girl was fined $5 by Magistrate Steiuert, the other was sent to the workhouse on a cumulative sentence, and the clergyman was discharged after he had told the court a lurid tale of slumming which ended in an encounter with the two detectives—one of whom he hit on the nose and a nightin the Tenderloin station house.

Jim Crow Case Dropped.

The United States Supreme Court yesterday was deprived of an opportunity to pass on the "jim crow" car question by the failure of Andrew Patterson, a Jacksonville, Fla., negro, to prosecute an appeal from the judgment of the Florida Supreme Court, upholding the validity of an ordinance of that city prescribing separate accommodations in street cars for the two races. His failure to print the record in the case resulted, under the court's rules, in it being stricken from the docket when the case was called for argument.

Construction Contracts Suspended.

Omaha, Neb., March 14.—Two large construction contracts suspended and almost a thousand men withdrawn from jobs, are evidences of the sincerity of the retrenchment policy of the Harriman lines. The impossibility of raising the funds to carry on the work is the reason given by Vice President Mohler for the action taken today. The contracts were both in the hands of Kilpatrick Brothers. One is for the line between Topeka and Marysville, giving Kansas City direct connection with the Union Pacific main line. The other is for a cut-off in Colorado, just south of Cheyenne, Wyoming.

New York Stock Market.

New York, March 14.—The stock market was extremely nervous and unsettled. After the first few minutes and until near the end of the first hour, prices of many stocks fell to the lowest level, reached on this movement. However, a rally started on which a part of the early losses was recovered. There was covering of shorts put out by the large room traders, buying by outside investors for cash and some support by rich interests. The opening was strong, partly because of the hope inspired by Washington dispatches, but chiefly of a changed sentiment in London.

Johnson for Montague and Willard respectively in the two campaigns In the U. S. Senatorial primary Judge Barley was for Martin and Mr. Johnson for Montague. Further Break in Stocks.

New York, March 14.—Notwithstanding the low points hit as a result of yesterday's slump in the stock market, and the point were the lowest since the panic of May, 1901, there was no great excitement in the street early today. Hard blows were struck yesterday but it was the big fellows who were punched—some of the most active speculative interests, and some of the leading figures in the banking world. The bleating lambs had most all been shaken out of the market before yesterday's squeeze came.

While it is expected that the market will be somewhat shaky today and probably for several days to come, it is believed that the worst squall is over.

It is known that the federal government is keeping a close eye on the ticker and there is a general belief in the street that some important action from Washington today can be expected in event of further unsettled conditions. The market opened irregular with a number of the more active stocks up for fractional gains, but at the end of ten minutes the downward movement had started.

The fun appeared to have started again. By 10:35 the market had developed extreme weakness. The declines were in part attributed to fresh selling orders for foreign account, and the execution of sales in default of response to margin calls sent out last night.

Shortly after noon the excitement was intensified by a sensational break in Reading

Another wild flurry of even greater proportions than that which created a mild panic in Wall street, yesterday, resulted this afternoon when shortly after 1 o'clock a determined bear raid carried almost the entire market down with a disastrous crash. Reading, which appeared one of the chief targets of the bear attack, tumbled ignominiously, reaching the low point of 96. The stock opened today at 115, after having closed last night at 113¾. The break in this stock resulted in a deluge of selling orders in many other issues, but fortunately in the midst of the downward rush a batch of urgent and hurried coverings of shorts in order to realize large profits in sight on the short side, it resulted in a number of sharp rallies, Reading being one of the beneficiaries, which went back to 99.

Word from Berlin was to the effect that New York aduices had worked disastrously on the Bourse here many stocks fell heavily and heavy offerings were met with no takers. London was also severely rapped by the Wall street crash.

Washington, D. C., March 14 —Secretary Cortelyou is keeping a sensitive finger upon the financial pulse. He is watching closely the course of the developements in Wall street, but it is understood that he sees in conditions no need for governmental interference. He is contemplating no present action in relief of the money market other than the determination to leave in the banks the $30,000,000 placed there last fall, with the understanding that it should be returned to the Treasury vaults in April.

This decision will have the effect of swelling circulation to that amount. The impression is gaining ground here that Wall street is hazing the new Secretary of the Treasury. If so, he is taking his knocks without the least apparent trepidation. The power of Wall street as exerted in years past against the treasury, and it attempts to force the government's financial hand is not a new experience for the present head of the treasury. It is understood that these operations of financial interests to influence government policies are invariably first directed against the White House. Secretary Cortelyou's long service as private Secretary to Presidents McKinley and Roosevelt thoroughly familiarized him with the methods invoked.

Flood at Pittsburg.

Pittsburg, Pa., March 14.—With four men already dead and a number of other fatalities reported, business along the river front for miles above and below Pittsburg idle, families abandoning their homes in the low lying district, Pittsburg and the surrounding country is in the throes of a flood that will, according to anthentic report, surpass the flood of 1884. Everywhere the rivers and tributaries are rising and there is no sign of abatement. Four men who had climbed a tree for safety were carried away and drowned. Many thrilling rescue were made early today. The water in the Monongahela river is rising at the rate of seven inches an hour, while the Allegheny river is rising almost as rapidly.

Rain fell in torrents again last night in Cincinnati, O., and river men predict another flood. The majority of the street car lines were put out of commission by the storm. At Springfield many people were driven from their home some escaping in row boats. Conditions are serious in several towns in Muskingum county where the people are fleeing to the hills for safety.

Practically every industrial plant in Wheeling will be forced to close down by nightfall on account of high water. The wholesale district will be under water by night.

The Thaw Trial.

New York, March 14.—Judge Fitzgerald in the Thaw trial today sustained Delmas's objection to the conversation between Hummel and Evelyn immediately preceding the dictation of the Hummel affidavit. Upon the introduction of this conversation Jerome had based his hope of getting in the affidavit itself, and the court's ruling is a victory for the defense. In the affidavit Evelyn is alleged to have denied ever telling Thaw White wronged her, and to have asserted Thaw beat her because she refused to sign documents prepared by him setting forth that White had betrayed her.

Delmas began speaking in reply to Jerome's argument of yesterday at 10:43.

Jerome replied briefly, pointing out that he had asked Evelyn specifically whether she had made each of these statements to Hummel and she said no. He contended that the question was relevant in the highest degree. In ruling out the important question Justice Fitzgerald tersely said: "The cases cited by the district attorney are not authorities on the point. The objection is sustained."

Jerome clearly showed he felt the defeat. He sat quietly a few moments before he tried to continue the examination of Hummel, who had in the meantime taken the stand. Then he began by putting the points contained in a long involved question, which had just been overruled into single questions. Several brisk clashes resulted between Jerome and Delmas in which each showed temper.

Jerome began by asking:

"At the interview Evelyn Thaw had with you in your office October 27, 1903, did she, prior to your dictating anything tell you that she had told Thaw it was not true that White had drugged her and wronged her?"

Before Delmas could object, Hummel seeing his chance, answered: "She certainly did."

"And you call yourself a lawyer?" thundered Delmas at the little witness, advancing toward Hummel.

Jerome suggested that the answer be stricken out.

"No," shouted Delmas, "The answer should be given. It is before the jury. I will waive my privilege to object and meet it at the proper time."

Jerome seemed to fear he had blundered and wanted the answer stricken out, but Delmas won in having it remain.

"In your office on October 27, 1903, did Evelyn, without dictation from you, say Thaw had prepared documents charging White with having drugged and betrayed her when she was about fifteen years old, and had he insisted on her signing these documents, but she told Thaw she would not sign as the statements were not true?

"I object," said Delmas. "The district attorney is merely dividing into shorter questions the long question to which the court had just substained my objection."

After further colloquies a recess was declared.

London, March 14.—The stock market was partly demoralized today which is settling day. Two small failures were announced and all stocks opened flat Later there was a general recovery, including American railways which advanced half a dollar a share. The general opinion of Capel Court is that the worst is over and further improvement of Americans is expected.

In the British House today, Earl Gray in reply to a question declared the Admiral Davis had landed marines at Kingston from single minded motives of humanity. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

School Examiners.

The State Board of Examiners now in session in this city have about completed their work.

As stated yesterday the examiners that day visited all but two of the schools in the county, and found everything connected with them progressing satisfactorily.

They found the roads, however, in bad condition and were much delayed in making their rounds. Superintendent of Schools Clements, of the county, acted as escort for the board.

This morning the examiners, accompanied by Superintendent Kemper, visited the schools of this city and later held their final meeting to wind up their work here. This evening they went to Washington to visit the schools of that city and interviewed some of the educators of that city.

The members of the board will remain over tomorrow, for the purpose of participating in the annual meeting of the teachers' institute to be held at Odd Fellows' Hall, which will be attended by the teachers of this city and county and some of the teachers of Fairfax county.

The opening exercises in the morning will be conducted by Rev. Everard Meade, rector of old Pohick Church, and Miss Grigg, of this city, will read a paper.

At night an educational meeting will be held at the Baptist Church at which the public is invited and urged to attend. Addresses will be delivered by Rev. Dr. W. F. Fisher, pastor of the church; J. D. Eggleston, jr., State superintendent of public instruction; Prof. Bruce R. Payne, of the University of Virginia, and School Examiner Charles G. Maphis.

Suspected of Stealing Horse.

While trying to sell a horse to a Washington dealer yesterday afternoon, Frank Downes, alias George B. Clucus, aged twenty-two, a member of Troop F, of the Thirteenth Cavalry, stationed at Fort Myer, was arrested on suspicion that he had stolen the animal. Downes was taken to police headquarters, where he said that he had bought the horse as an investment, but after a talk with Capt. Boardman, it is claimed, he confessed that it was one of a pair which he had hired from Mr. P. T. Harrington's livery stable in this city the night before. He said that early yesterday morning he left one of the horses in a barn about three miles from Alexandria, and proceeded to Washington with the idea of selling the other. The authorities of this city were notified about the matter and Officer Young, accompanied by Mr. Harrington, last night proceeded to St. Elmo, where they learned that Downes left one of the horses and mounting the other animal rode to Washington. Downes told people at St. Elmo that he was pursuing a deserter from the army. It is generally supposed that had he sold the horse he rode to Washington he would have returned and taken the other horse and vehicle to that city and disposed of them. This morning Officer Young and Mr. Harrington went to Washington and brought Downes to this city. He will be arraigned in the Police Court tomorrow.

The Accident at Long Bridge.

As was stated in the Gazette of that day, while workmen were engaged in demolishing the Long Bridge, the span nearest the northern end collapsed yesterday afternoon about 2 o'clock, precipitating seven of them into the water, ten feet below. The men had been working on the span for some time, and had removed a greater part of the underpining and braces, but thought that the remaining supports would be sufficient to withstand the weight. With a loud crash the entire span gave way, carrying the seven men who were on it at the time into the river. None of the men was seriously injured although they were all painfully hurt.

Mission in Leesburg.

The lectures on the Catholic Church by Rev. Fathers Waters and Van Inglegem, which began in the Opera House on Sunday night, have been well attended, and will continue throughout the week, closing on Sunday night. These reverend gentlemen are eloquent and convincing speakers and their lectures are highly spoken of by those who have attended, and the attendance increases each evening.—[Loudoun Mirror.

[Rev. Fathers Waters and Van Inglegem recently conducted a mission at St. Mary's Church in this city. The services were well attended, interesting and instructive.]

Seminary Catalogue.

The catalogue of the officers, students and alumni of the Theological Seminary of the Protestant Episcopal Church in Virginia has been received. This is the eighty-fourth year of the seminary which has given to the church over 1,000 ministers, 29 of its alumni to the episcopate and more than 60 men to foreign mission fields. At present there are 46 students from fifteen dioceses and the members of the faculty number 6. The library contains 25,000 volumes and has recently been rearranged and recatalogued on the card system. The catalogue contains much information of interest to the many friends of the seminary.

Colored Minister Assaulted.

Rev. J. Bryan Hopkins, colored, of this city, was brutally assaulted by four white men on Alfred street, between Princess and Oronoco, last night. The victim of the assailants was wearing spectacles at the time, and broken glass from the same was forced into his eyes. He was knocked down and also kicked unmercifully. After the minister had succeeded in escaping from the men, he was compelled to go to the Alexandria Hospital and secure surgical aid, as his eyes were seriously injured from the broken spectacles. The cause of the assault is a mystery.

Theodore J. Mayer, member of the flour and milling firm of W. M. Galt & Co., and prominent business man of Washington died on Tuesday night.

Plant in Operation.

Armor-piercing projectiles, ranging in size from five to thirteen inches, are being manufactured at the new plant of the Firth-Sterling Steel Company at Giesboro Point, on the south side of the Eastern branch, a short distance north of this city. About 300 workmen are on the pay rolls of the company. It is understood that the number of men employed at the plant will be increased in the near future, and that within the next few weeks the entire plant will be in operation. The plant was formerly located at McKeesport, Pa., Railway connections with the plant are made from the branch of the Baltimore and Ohio railway running down to Shepherd's Landing, opposite this city. The work of extending the pier at the plant to deep water at the channel has been started. When the pier is completed the Alexandria-Washington ferry steamer will stop there at certain trips in the day for the convenience of the workmen who will make their homes in Alexandria.

The Wright Case.

The Court of Appeals in Richmond today handed down an opinion in the case of John Wright, colored, convicted and sentenced by the Circuit Court of Alexandria county to be hanged for criminally assaulting Miss Mabel Bisley near Luna Park, in the county, on September 9. The decision of the lower court is affirmed. The case was recently argued before five members of the Court of Appeals by Mr. J. E. Clements, attorney for Wright, and today it is understood three of the judges voted to affirm the decision of the lower court, while the two others handed down dissenting opinions. Mr. Clements will at once apply for a rehearing of the case before a full bench. He has ten days in which to file his motion.

Lecture Tonight.

Mrs. Kate W. Barrett will speak in the M. E. Church South at 7:30 o'clock tonight. Mrs. Barrett has visited all the expositions in the world that have been held since 1876, therefore her knowledge of the needs and opportunities of expositions is extensive. She is the chairman of the woman's work at the Jamestown Exposition to be held this spring and summer, and will bring many interesting and profitable things before her audience. Nobody could spend an evening more profitably than by going to hear her lecture. No admission will be charged, but a collection will be taken up.

Suicide of an Alexandrian.

Frederick M. Dilger, aged 32 years, living at No. 1235 Fifth street, northwest, Washington, hanged himself to a bed post today. Dilger was recently discharged from the Middletown, N. Y., Insane Asylum. He was a son of the late Theodore Dilger, and was born in this city. A few months ago, it will be remembered Mr. Dilger attempted to commit suicide by jumping from a ferry boat at the Washington wharf.

Failing to pay the fines, they will have two months' imprisonment added. Three were fined $10 each and costs. Two other men, who had turned State's evidence, were dismissed.

The Potomac Rising.

Dispatches from Cumberland, Md., say that the Potomac river has passed the flood stage there and the water has covered a large areasand is causing trouble and damage. The river at Alexandria, so far, shows but little change from normal conditions. High tides have prevailed during the past few days, but no current has as yet been noticed.

Mr. C. C. Carlin.

The Loudoun Enterprise in speaking of the candidacy for Congress of Mr. C. C. Carlin, of this city, says: Hon. Charles C. Carlin, of Alexandria, a candidate for Congress, will at once strongly appeal to every thoughtful man. The majority of men greatly admire and appreciate one of their fellows who, starting in life as a poor newsboy, by sheer force of character, unaided save by his own indomitable energy, pluck and diligence, mounts step by step the hill of life until at the age of 41 he has not only succeeded in educating himself and supporting his family, but has mastered the abstruse learning of the law and attained to an enviable position at the top of the profession. The knowledge that he has accomplished this at once convinces them that he is a man of profound inherent ability that has grown and rounded out as a result of assiduous, intelligent, well-directed toil and cultivation. Realizing what, unassisted, he has achieved in a private capacity, while at all times jealously guarding and sustaining his clean, unsullied reputation for uncompromising honesty and concededly high character, they are apt to reason, and rightly we think, that with a little aid and encouragement in securing the public position to which he aspires, he will be enabled to achieve still greater results, in which they will share with other beneficiaries. They will natually conclude that with such a man in Congress the interests of his constituents will be well guarded, and as far as it is possible for intelligent, well-directed efforts to accomplish it, the Eighth District of Virginia will get all that is coming to her. We have heard a sufficient number of emphatic pronouncements for Mr. Carlin to convince us that he has a rapidly increasing number of warm admirers in this county. In our judgment, he will have cause to be proud of the support that Loudoun will give him.

Jr. O. U. A.

All arrangements have been perfected by Alexandria and Belle Haven Councils for the class initiation to be conducted in the Council chamber of Alexandria Council this evening. A number of the officers of the State Organization will be present.

THURSDAY EVENING, MAR. 14, 1907.

MUNICIPAL LUNACY.

Edited by JOHN KENDRICK BANGS.

Professor Byron Scribble, the distinguished poet and president of the Higgsville Authors' club, has been placed in charge of the municipal gas plant at Higgsville, Ind. Professor Scribble has had no previous experience in the manufacture of gas, but there is no man in the Hoosier State who can handle various kinds of meters better than he, and under his administration it is hoped the produce will more closely resemble the divine afflatus than hitherto.

The estimated loss of $500 per diem upon the city owned Staten Island ferry in New York will be met not, as has been feared, by an increase of the tax levy, but by the printing of a sumcient number of tons of ferry bonds to be used as fuel as a substitute for coal, thereby saving vast sums of money and the whole bond issue being consumed without adding any future obligations, interest bearing or otherwise, to the city debt.

The city authorities of Glasgow admitted a loss last year of $60,000 on the operations of their gas plant. Mr. Sandy MacNab, the humorist of Troon, has written to the Glasgow Sunday American stating that these figures are more illuminating than the gas, which strikes the American mind as a pretty good joke for a Scotchman.

We hear on good authority that when the city of Chicago finally enters upon the operation of the street car system the substitution of hammocks and swinging chairs for straps is not seriously contemplated.

A sarcastic correspondent, who has read recently that the operating expenses of the Lakewood (O.) electric light plant show a cost of $129.56 per arc, writes to ask how this compares proportionately to the expense of running Noah's ark. The question is respectfully referred to the Union Theological seminary. We frankly confess that we do not know the answer.

People who live in glass houses should not throw stones. A Jamestown (N. Y.) man, who complained recently that the municipally owned electric lights of that town were frequently out all night was laughed out of court because he had to confess that he was often out all night himself.

One-fifth of the garbage of the city of New York is consumed daily in operating the electric lighting plant by which the Williamsburg bridge is illuminated, a mile and a half long, or, counting both roadways, three miles. This means that only 2 per cent of New York's 900 miles of street lighting could be provided for if all the garbage available were used for that purpose. If, therefore, as has been advocated, the public buildings and thoroughfares should be lighted by electricity secured through the burning of this commodity, it is surely up to the loyal citizens of New York to produce more garbage than they do at present. It is to be hoped that this hint will be sufficient to induce the taxpayers to act, for, if they do not, who knows how long it will be before the city finds itself at the mercy of an unscrupulous, privately owned garbage manufacturing company, organized for no other purpose than to put the small garbage producer out of business and to secure the emoluments which belong to and should therefore accrue to the benefit of the people themselves?

Awful British Telephone Service.

Commenting upon the recent sale of the Glasgow municipal telephone system to the British postoffice the Philadelphia Inquirer says:

"The people of Glasgow are entitled to commiseration, for it is a case of out of the frying pan into the fire. By those who have tried it words have been declared inadequate to describe the badness of the telephone service furnished by the British postoffice.

"Municipal ownership may be all right in principle, but private enterprise properly controlled for the public benefit usually beats it in practice."

Present Ills Bad Enough.

While the most sanguine of conservatives may, in their most hopeful moments or when smarting under the issues of either individualism or corporate audacity, feel an impulse to try the prescription of the municipal ownership doctors, yet a recollection of the examples of municipal employment with which the past is rife is quite enough to make one bear the ills we know about rather than open a Pandora's box of other ills, which once set free may never again be curbed or reboxed.—George W. Ditbridge in New York Sun.

Want Their Money Back.

In 1903 Frankfort, N. Y., installed a municipal electric light plant at a cost of $6.50 for each inhabitant. The village trustees have now made a five year contract with the Utica Gas and Electric company because its price is less than the mere operating cost of the municipal plant.

Not Good Business.

Demagogues may say what they please, but government ownership, municipal or national, is wrong from the business man's point of view.—Jerome Jones.

When you live in or use property that is taxed you pay the taxes.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisic, stops hemorrhages of the lungs and builds them up. Guaranteed at E. S. Leadbeater & Son's drug store. 50c and $1. Trial bottle free.

The Faithful Little Guide.

Ofttimes I have seen a tall ship glide by against the tide as if drawn by some invisible towline with a hundred strong arms pulling it. Her sails hung unfilled; her streamers were drooping; she had neither side wheel nor stern wheel. Still she moved on stately in serene triumph, as if with her own life. But I knew that on the other side of the ship, hidden beneath the great hulk that swam so majestically, there was a little toiling steam tug with a heart of fire and arms of iron that was hugging it close and dragging it bravely on, and I knew that if the little steam tug unwound her arms and left the tall ship she would wallow and roll about and drift hither and thither and go off with refluent tide, no man knows whither. And so I have known more than one genius, high decked, full freighted, wide sailed, gay pennoned, that but for the bare toiling arms and brave, warm-beating heart of the faithful little wife that nestled close to him so that no wind or wave could part them would soon have gone down stream and been heard of no more.—Oliver Wendell Holmes.

A Fatal Sleep.

Hugh Miller, the Scottish geologist and writer, was one of the most illustrious of sleepwalkers. Miller, who had been addicted to somnambulism in his youth, found his restlessness return while he was engaged upon his "Testimony of the Rocks." He used to wake in the morning feeling, as he said, as if he had been abroad in the night wind, dragged by some invisible power and ridden by witches. On the night of his death he slept alone. In the morning they found him stretched dead on the floor with a bullet through his breast. He had written a note to his wife: "My brain burns. I must have walked, and a fearful dream rises upon me. I cannot bear the horrible thought. My brain burns as the recollection grows." So intense had been the poor fellow's anguish that to make certain his end he had torn back shirt and vest and placed the muzzle of the pistol to his naked flesh.—St. James' Gazette.

The Fractured Leg.

A visitor was going through the children's surgical ward of one of the city hospitals when he spied a little fellow with his legs in the air and his weight resting on his head and shoulders. Going closer, he saw that the boy's feet were fastened with ropes which passed through a pulley above. At the other ends of the ropes were weights, just heavy enough to hold the boy's legs in the air without lifting him entirely off the bed.

"What's all that about?" asked the visitor. "Doesn't it hurt him?"

"Not at all," answered the physician who was accompanying. "He doesn't look unhappy, does he? That's the way we always handle fractures of the leg with a child. Otherwise the youngsters squirm around so that they work the splints loose. Only one of this boy's legs is injured, but they are both swung in the air for his greater comfort."—New York Post.

Sorrows of a Humorist.

"This thing of being a humorist is about the saddest thing I know," sighed Simeon Ford. "An ordinary person can have his moods and humors as he pleases, but I must always be on the job. I am constantly being invited out, not because I'm liked for myself alone or because of my manly beauty, but because I am expected to entertain the assemblage. The rest of the company may be as dull as dishwater, but if I do not shake up the gathering with a few jokes the hostess glares at me and really feels resentful. I may be sunk in the slough of despond, but just as soon as I take my seat all lean forward and eye me expectantly. My son, never get a reputation for being funny. It is the most mournful thing on earth."—New York Press.

Teeth of Chambermaids.

Have you ever noticed that every chambermaid who has been taking care of the hay and feathers for a number of years is usually devoid of a few teeth of the upper "cases?" Veteran chambermaids can seldom show a full set of upper teeth. The absence of the ivories is explained as follows by a downtown dentist: "The teeth of the maids which I replace with artificial ones are pillowcase teeth. They are constantly used in putting on pillowcases and are not strong enough to stand the strain. Their work is a constant wear and tear on the teeth."—Pittsburg Dispatch.

Health in Canal Zone.

The high wages paid make it a mighty temptation to our young artisians to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters—who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c.

Little globules of sunshine that drive the clouds away. DeWitt's Little Early Risers will scatter the gloom of sick headache and biliousness. They do not gripe or sicken. Recommended and sold here by W. F. Creighton & Co., 401 King street.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by E. S. Leadbeater & Sons, druggists.
